1. Foster students' self-discovery, self-awareness, and self-discipline.
2. Develop students' awareness of and appreciation for cultural diversity.
3. Stimulate students' intellectual curiosity and growth.
4. Provide students with fundamental career concepts and skills.
5. Help students develop sensitivity to the needs and values of others and a respect for individual and group differences.
6. Help each student strive for excellence and instill a desire to reach the limit of his or her potential.
7. Encourage students to become life long learners.
8. Provide an educational climate and culture free of bias concerning the protected classifications identified in policy 7:10, *Equal Educational Opportunities*.

In order for the School Board to monitor whether the educational program is attaining these objectives and to be knowledgeable of current and future resource needs, the Superintendent shall prepare an annual report that includes:

1. A review and evaluation of the present curriculum.
2. A projection of curriculum and resource needs.
3. An evaluation of, and plan to eliminate, any bias in the curriculum or instructional materials and methods concerning the classifications referred to in item 8, above.
4. Any plan for new or revised instructional program implementation.
5. A review of present and future facility needs.

School Accountability

According to the Illinois General Assembly, the primary purpose of schooling is the transmission of knowledge and culture through which students learn in areas necessary to their continuing development and entry into the world of work. To fulfill that purpose, the Illinois State Board of Education prepared *State Goals for Learning* with accompanying *Illinois Learning Standards*.

The School Board gives priority in the allocation of resources, including funds, time, personnel, and facilities, to fulfilling this purpose.

Quality Assurance

The Board continuously monitors student achievement and the quality of the District's work. The Superintendent shall supervise the following quality assurance components, in accordance with State law and Illinois State Board of Education (ISBE) rules, and continuously keep the Board informed:

1. Prepare each school's annual recognition application and quality assurance appraisal, whether internal or external, to assess each school's continuous school improvement.
2. Continuously assess the District's and each school's overall performance in terms of both academic success and equity. This includes, without limitation, a thorough analysis of ISBE's balanced accountability measure and each school's *Multiple Measure Index* and corresponding *Annual Measurable Objective* provided by ISBE.
3. If applicable, develop District and School Improvement Plans, present them for Board approval, and supervise their implementation.
4. Prepare a school report card, present it at a regular Board meeting, and disseminate it as provided in State law.
5. In accordance with Sec. 2-3.153 of the School Code, administer at least biennially a survey of learning conditions on the instructional environment within the school to, at minimum, students in grades 6 through 12 and teachers.

Curriculum Development

Adoption

The Superintendent shall recommend a comprehensive curriculum that is aligned with:

1. The District's educational philosophy and goals,
2. Student needs as identified by research, demographics, and student achievement and other data,
3. The knowledge, skills, and abilities required for students to become life-long learners,

Student Social and Emotional Development

Social and emotional learning (SEL) is defined as the process through which students enhance their ability to integrate thinking, feeling, and behaving to achieve important life tasks. Students competent in SEL are able to recognize and manage their emotions, establish healthy relationships, set positive goals, meet personal and social needs, and make responsible and ethical decisions.

The Superintendent shall incorporate SEL into the District's curriculum and other educational programs consistent with the District's mission and the goals and benchmarks of the Ill. Learning Standards. The Ill. Learning Standards include three goals for students:

1. Develop self-awareness and self-management skills to achieve school and life success.
2. Use social-awareness and interpersonal skills to establish and maintain positive relationships.
3. Demonstrate decision-making skills and responsible behaviors in personal, school, and community contexts.

The incorporation of SEL objectives into the District's curriculum and other educational programs may include but is not limited to:

1. Classroom and school-wide programming to foster a safe, supportive learning environment where students feel respected and valued. This may include incorporating scientifically based, age-and-culturally appropriate classroom instruction, District-wide, and school-wide strategies that teach SEL skills, promote optimal mental health, and prevent risk behaviors for all students.
2. Staff development and training to promote students' SEL development. This may include providing all personnel with age-appropriate academic and SEL and how to promote it.
3. Parent/Guardian and family involvement to promote students' SEL development. This may include providing parents/guardians and families with learning opportunities related to the importance of their children's optimal SEL development and ways to enhance it.
4. Community partnerships to promote students' SEL development. This may include establishing partnerships with diverse community agencies and organizations to assure a coordinated approach to addressing children's mental health and SEL development.
5. Early identification and intervention to enhance students' school readiness, academic success, and use of good citizenship skills. This may include development of a system and procedures for periodic and universal screening, assessment, and early intervention for students who have significant risk factors for social, emotional, or mental health conditions that impact learning.
6. Treatment to prevent or minimize mental health conditions in students. This may include building and strengthening referral and follow-up procedures for providing effective clinical services for students with social, emotional, and mental health conditions that impact learning. This may include student and family support services, school-based behavioral health services, and school-community linked services and supports.
7. Assessment and accountability for teaching SEL skills to all students. This may include implementation of a process to assess and report baseline information and ongoing progress about school climate, students' social and emotional development, and academic performance.

Education of Children with Disabilities

The School District shall provide a free appropriate public education in the least restrictive environment and necessary related services to all children with disabilities enrolled in the District, as required by the Individuals With Disabilities Education Act (IDEA) and implementing provisions of The School Code, Section 504 of the Rehabilitation Act of 1973, and the Americans With Disabilities Act. The term “children with disabilities,” as used in this policy, means children between ages 3 and 21 (inclusive) for whom it is determined, through definitions and procedures described in the Illinois State Board of Education’s *Special Education* rules, that special education services are needed.

It is the intent of the District to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated, and provided with appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to the IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in the Illinois State Board of Education’s *Special Education* rules. For those students who are not eligible for services under IDEA, but, because of disability as defined by Section 504 of the Rehabilitation Act of 1973, need or are believed to need special instruction or related services, the District shall establish and implement a system of procedural safeguards. The safeguards shall cover students’ identification, evaluation, and educational placement. This system shall include notice, an opportunity for the student’s parent(s)/guardian(s) to examine relevant records, an impartial hearing with opportunity for participation by the student’s parent(s)/guardian(s), representation by counsel, and a review procedure.

The District may maintain membership in one or more cooperative associations of school districts that shall assist the District in fulfilling its obligations to the District’s disabled students.

If necessary, students may also be placed in nonpublic special education programs or education facilities.

Administrative Procedure - Access to Classrooms and Personnel

Access to classrooms and personnel is permitted in limited situations by Section 105 ILCS 5/14-8.02(g-5), amended by P.A. 96-657. Guidelines follow:

1. These guidelines apply to access requested by the parent/guardian of a student receiving special education services or being evaluated for eligibility, an independent educational evaluator, or a qualified professional retained by or on behalf of a parent/guardian or child. A *qualified professional* means “an individual who holds credentials to evaluate the child in the domain or domains for which an evaluation is sought or an intern working under the direct supervision of a qualified professional, including a master’s or doctoral degree candidate.” These individuals are referred to in this procedure as *visitors*.
2. Visitors will be afforded reasonable access to educational facilities, personnel, classrooms, and buildings and to the child. To minimize disruption, reasonable access means that the parent(s)/guardian(s) or qualified professional retained by or on behalf of a parent/guardian or child is allowed access once per school quarter for up to one hour or one class period. A visitor may request the authorized administrator to grant longer or additional observations based on individual circumstances and provide any supporting documentation in support of such a request. A professional evaluator can request longer or additional observations in his or her initial request. The administrator may grant, deny, or modify the request, and the administrator’s decision shall be final.
3. Visitors must comply with:
 - a. School safety, security, and visitation policies at all times.
 - b. Applicable privacy laws, including those laws protecting the confidentiality of education records such as the federal Family Educational Rights and Privacy Act and the Illinois School Student Records Act.
 - c. Board policy 8:30, *Visitors to and Conduct on School Property*. Visitors may not disrupt the educational process.
4. If the visitor is a parent/guardian, he or she will be afforded reasonable access as described above for the purpose of:
 - a. Observing his or her child in the child’s current educational placement, services, or program, or
 - b. Visiting an educational placement or program proposed for the child by the IEP team.
5. If the visitor is an independent educational evaluator or a qualified professional retained by or on behalf of a parent or child, he or she must be afforded reasonable access of sufficient duration and scope for the purpose of conducting an evaluation of the child, the child’s performance, the child’s current educational program, placement, services, or environment, or any educational program, placement, services, or environment proposed for the child, including interviews of educational personnel, child observations, assessments, tests, or assessments of the child’s educational program, services, or placement or of any educational program proposed by the IEP team, services, or placement. If one or more interviews of school personnel are part of the evaluation, the interviews must be conducted at a mutually agreed upon time, date, and place that do not interfere with the school employee’s school duties. The Building Principal or designee may limit interviews to personnel having information relevant to the child’s current educational services, program, or placement or to a proposed educational service, program, or placement.

6. Prior to visiting a school, school building, or school facility, a visitor must complete 6:120-AP2, E1, *Request to Access Classroom(s) or Personnel for Special Education Evaluation and/or Observation Purposes*. This form serves to:
 - a. Inform the Building Principal or designee in writing of the proposed visit(s), the purpose, and the duration, and
 - b. Identify requested dates/times for the visit(s) to facilitate scheduling.
7. The student's parent/guardian must consent in writing to the student being interviewed by the named evaluator as part of a visit. The parent/guardian will grant this consent by completing 6:120-AP2, E1, *Request to Access Classroom(s) or Personnel for Special Education Evaluation and/or Observation Purposes*.
8. The student's parent/guardian, or the student, if he or she is over the age of 18, must execute an Authorization to Release Student Record Information before an independent educational evaluator or a qualified professional retained by or on behalf of a parent/guardian or child will be given access to student school records or to personnel who would likely release such records during discussions about the student. If a student is over the age of 12 and the records contain mental health and/or developmental disability information, the student must also be requested to sign the Authorization to Release information before any observation by or disclosure of school student records or information to a visitor.
9. The visitor must acknowledge, before the visit, that he or she is obligated to honor students' confidentiality rights and refrain from any re-disclosure of such records. The visitor will provide this acknowledgment and agreement by completing 6:120-AP2, E1, *Request to Access Classroom(s) or Personnel for Special Education Evaluation and/or Observation Purposes*.
10. The Building Principal or designee will attempt to arrange the visit(s) at times that are mutually agreeable. The Building Principal or designee will accompany any visitor for the duration of the visit, including during any interviews of staff members.
11. If the visitor is a professional retained by the parent/guardian, the visitor must provide identification and credentials before the visit.
12. This procedure applies to any public school facility, building, or program and to any facility, building, or program supported in whole or in part by public funds. The student's case manager or other District designee must facilitate such visit(s) when the student attends a program outside of the School District, such as at a private day program or residential program, provided it is supported in whole or in part by public funds.

Administrative Procedure - Service Animals

State and federal law allow a student with a disability to be accompanied by a service animal that is individually trained to perform work or tasks for the benefit of a student. The animal may accompany the student to all school functions, whether in or outside the classroom. Use this procedure to identify and manage legal and practical issues when a student with a disability uses a service animal at school.

Definitions

Service Animal – A dog or miniature horse trained or being trained as a hearing animal, guide animal, assistance animal, seizure alert animal, mobility animal, psychiatric service animal, autism service animal, or animal otherwise trained to assist an individual with a physical, mental or intellectual disability, according to State law (105 ILCS 5/14-6.02, amended by P.A. 97-956). Federal law defines *service animal* as any *dog* or *miniature horse* that is individually trained to perform tasks or work for the benefit of a student with a disability (28 C.F.R. §§35.104 and 35.136). Federal law also explains that other species of animals, whether wild or domestic, trained or untrained, are not service animals.

Under federal law, *disability* includes a physical, sensory, psychiatric, intellectual, or other mental disability. The “work or tasks performed” must be directly related to the student’s disability. Examples of work or tasks include, but are not limited to assisting a student who is blind or has low vision with navigation and other tasks; alerting a student who is deaf or hard of hearing to the presence of people or sounds; providing non-violent protection or rescue work; pulling a wheelchair; assisting a student during a seizure; alerting a student to the presence of allergens; retrieving items such as medicine or the telephone; providing physical support and assistance with balance and stability to a student with mobility disabilities; and helping a student with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors or performing other duties.

For more information about the definition of *service animal*, see the U.S. Dept. of Justice, Civil Rights Div., *Disability Rights Section*, document titled *Service Animals* at:

www.ada.gov/service_animals_2010.htm.

Handler - An individual who has and maintains control over the service animal. This individual may be the student using the service animal. Control of the service animal means using a harness, leash, or other tether, unless the handler is unable because of a disability to use one of these devices or their use would interfere with the service animal’s safe, effective performance of work or tasks. If or when these devices are not used, control of the service animal must be accomplished through voice control, signals, or other effective means.

Exhibit - Request for a Service Animal to Accompany a Student in School Facilities ¹

This form identifies criteria to help the District minimize risks that a service animal poses to students, staff, and the educational environment. It is not based on speculation, stereotypes, or generalizations about students with disabilities. Each criterion includes guidelines and explanations with resources. A service animal that meets the criteria may accompany a student to all school functions in or outside the classroom.

Parent/guardian Complete this form and return it to the Building Principal. It will be used during the Individual Education Plan or Section 504 plan meeting.

Student name <i>(please print)</i>	DOB
School attending	Grade
Parent/Guardian name <i>(please print)</i>	Contact number
Animal owner's name <i>(if other than parent/guardian; please print)</i>	Contact number
Animal handler's name <i>(if other than owner's name; please print)</i>	Contact number

Please initial before each of the following statements if the statement is true.

The animal has completed a professional service animal training program.

(Initials)

Guidelines	Explanation
Trained service animals generally include: <ul style="list-style-type: none"> • Hearing dog • Guide dog • Assistance dog • Seizure alert dog • Mobility dog • Psychiatric service dog • Autism service dog (could be same as therapy dog) Trained service animals generally do not include: <ul style="list-style-type: none"> • Skilled Companion Animal • Social Dog • Facility Dog • Trained Agility Dog 	To minimize risks, a service animal should be professionally trained. This training is different from and in addition to the <i>individualized training</i> to perform tasks for the benefit of the student. Assistance Dogs International, Inc. (ADI) is a coalition of not-for-profit organizations. Its purpose is to improve the areas of training, placement, and utilization of service dogs. See its website for service animal training programs at: www.assistancedogsinternational.org/Standards/ServiceDogStandards.php .

¹ Managing service animals in the school setting presents many unsettled and complex legal issues. Consult the board attorney for advice before using this exhibit. Illinois law provides little guidance on the issue of service animals in the school setting.

The animal meets minimum standards for a service animal in public.

Guidelines	Explanation
<p>Public appropriateness standards:</p> <ul style="list-style-type: none"> • Clean, well-groomed with no offensive odor. • Does not urinate or defecate in inappropriate locations. <p>Behavior standards:</p> <ul style="list-style-type: none"> • Does not disrupt the normal course of school business; solicit attention, visit or annoy, solicit or steal food or other items from any member of the staff or student population; or vocalize unnecessarily, i.e., barking, growling or whining, etc. • Shows no aggression towards people or other animals, i.e., showing teeth, barking, growling, jumping on individuals, etc. <p>General training standards:</p> <ul style="list-style-type: none"> • Works calmly and quietly on harness, leash, or other tether. • Performs tasks in the school setting and lies quietly beside the student or adult handler without blocking aisles, doorways, etc. • Trained to urinate and defecate on command. • Stays within 24 inches of the student or adult handler at all times unless the nature of a trained task requires it to be working at a greater distance. 	<p>Requiring “minimum standards for a service animal in public” ensures that the school provides reasonable accommodations without fundamentally altering the nature of the school environment. No State laws or agency rules address specific minimum standards for a service animal. This list follows the ADI’s “minimum standards for a service animal in public,” available at: www.assistancedogsinternational.org/Standards/ServiceDogStandards.php.</p> <p>Additional standards may be appropriate to meet a school building’s and its students’ needs. The ADI’s sample public access test ensures that an animal has appropriate behavior for a public setting. Available at: www.assistancedogsinternational.org/publicaccesstest.php.</p>

The animal is individually trained to perform tasks for the benefit of a student with a disability.

_____ The animal has a current rabies vaccination tag.

(Initials)

Guidelines	Explanation
A service animal’s vaccinations must be current and filed in the student’s temporary record.	Illinois law only requires a current rabies vaccination, which is verified through a current rabies vaccination tag. 510 ILCS 5/8. Local municipalities, cities, or villages within the District’s boundaries may have additional registration requirements. Require proof of those if they exist.

_____ The adult handler(s) may lawfully:

- 1. Be on school property, and**
- 2. Have contact with children.**

(Initials)

Guidelines	Explanation
Identify adult handler(s): 1. _____ 2. _____ The animal handler must not be a person who is a “sex offender,” as defined by the Sex Offender Registration Act, or a “violent offender against youth,” as defined in the Child Murderer and Violent Offender Against Youth Registration Act.	At a minimum, 720 ILCS 5/11-9.3 prohibits a child sex offender from being present on school property when persons under the age of 18 are present. Note that some school boards forbid the use of convicted felons as volunteers. Board policy 6:250, <i>Community Resource Persons and Volunteers</i> , requires the Superintendent to establish procedures for securing and screening resource persons and volunteers. 6:250-AP, <i>Securing and Screening Resource Persons and Volunteers</i> , requires criminal history records checks for individuals who work in direct contact with students or where a check would be prudent.

Acknowledgement

- I. I understand that the presence of a service animal may present competing educational rights between my student and other students at school. These issues may present at any time, and I understand that the Building Principal must manage them immediately. I will:
 - a. Participate in any meetings requested of me by the Building Principal;
 - b. Participate in drafting a joint communication to notify other students and their parents/guardians about the placement of the service animal; and
 - c. Authorize the school to disclose information as necessary to balance competing educational interests and integrate the animal into the classroom and the school environment.

II. I understand that for the safety and protection of students and staff, which is necessary for the safe operation of the school, the school may revoke access because:

- a. One of the criteria above is not present.
- b. The service animal displays aggression or appears to be an imminent threat to the safety or health of any person in the school. If this occurs, the Building Principal will immediately contact me to remove the animal from school property and summon Animal Control.
- c. The adult handler fails to follow the Building Principal's instructions.

III. I understand that a service animal's owner is solely liable for any damage to persons, premises, or facilities that were caused by the service animal. I will hold the District, its employee, agents, and assigns harmless for any injury to, including death of, the service animal. I understand that the Local Governmental and Governmental Employees Tort Immunity Act protects staff members from liability arising from actions consistent with Board policies and administrative procedures.

Exhibit - Notice to Parents/Guardians Regarding Section 504 Rights

On District letterhead

Date:

Dear Parent/Guardian:

Re: Section 504 Rights

The Rehabilitation Act of 1973, commonly referred to as "Section 504," is a nondiscrimination statute enacted by the U.S. Congress. The Act's purpose is to prohibit discrimination and to assure that disabled students have educational opportunities and benefits equal to those provided to non-disabled students.

An eligible student under Section 504 is a student who: has, has a record of having, or is regarded as having, a physical or mental impairment which substantially limits a major life activity such as learning, self-care, walking, seeing, hearing, speaking, breathing, working, and performing manual tasks. Many students will be eligible for educational service under both Section 504 and the Individuals with Disabilities Education Act (IDEA). Students who are eligible under IDEA have many specific rights that are not available to students who are eligible solely under Section 504.

This notice describes the rights assured by Section 504 to those disabled students who do not qualify under IDEA. The intent of this notice is to keep you fully informed concerning decisions about your student and to inform you of your rights if you disagree with any decisions in reference to Section 504.

Please keep this explanation for future reference.

Parents/Guardians and/or students have the right to:

1. Be informed by the School District of your rights and procedural safeguards under Section 504 in an understandable language. 34 C.F.R. Parts 104 and 300. The purpose of this notice is to advise parents/guardians and/or students of these rights. 23 Ill.Admin.Code §§226.500, 510 and 610.

3. Free educational services except for those fees that are imposed on non-disabled students or their parents/guardians. Insurers and similar third parties are not relieved from an otherwise valid obligation to provide or pay for services provided to a disabled student. 34 C.F.R. §104.33.
4. A placement in the least restrictive environment. 34 C.F.R. §104.34.
5. Facilities, services, and activities that are comparable to those provided for non-disabled students. 34 C.F.R. §104.34.
6. An evaluation prior to an initial Section 504 placement and any subsequent significant change in placement. 34 C.F.R. §104.34.
7. Testing and other evaluation procedures conforming to the requirements of 34 C.F.R. §104.35 as to validation, administration, areas of evaluation, etc. The District shall consider information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical conditions, social and cultural background, adaptive behavior, physical or medical reports, student grades, progress reports, parent/guardian observations, anecdotal reports and standardized test scores. 34 C.F.R. §104.35.
8. Placement decisions made by a group of persons, i.e., a Section 504 committee, including the parent(s)/guardian(s) persons knowledgeable about the student, the meaning of the evaluation data, the

placement options and the legal requirements for the least restrictive environment and comparable facilities. 34 C.F.R. §104.35.

9. Periodic reevaluations. 34 C.F.R. §104.35.

11. Examine relevant records. 34 C.F.R. §104.36.
12. An impartial due process hearing regarding the student's identification, evaluation or educational placement including an opportunity for parental participation in the hearing and representation by an attorney. 34 C.F.R. §104.36.

You must file a written *Parental Request for an Impartial Due Process Hearing* with the District Section 504 compliance coordinator or designee. If you disagree with the decision of the Section 504 committee. The request must be submitted to the District Section 504 compliance coordinator within 10 calendar days from the time you received the written notice of the District's Section 504 committee decision. A copy of a *Parental Request for an Impartial Due Process Hearing* is available online at:

Program for the Gifted

The Superintendent or designee shall implement an education program for gifted and talented learners that will challenge and motivate academically advanced learners and engage them in appropriately differentiated learning experiences to develop their unique abilities. If the State Superintendent of Education issues a Request for Proposals because sufficient State funding is available to support local programs of gifted education, the Superintendent or designee shall inform the Board concerning the feasibility and advisability of developing a “plan for gifted education” that would qualify for State funding.

Eligibility to participate in the gifted program shall not be conditioned upon race, religion, sex, disability, or any factor other than the student’s identification as gifted or talented learner.

The School Board will monitor this program’s performance by meeting periodically with the Superintendent or designee to determine and/or review the indicators and data that evidence whether the educational program for gifted and talented learners is accomplishing its goals and objectives and is otherwise in compliance with this policy.

Education of Homeless Children

Each child of a homeless individual and each homeless youth has equal access to the same free, appropriate public education as provided to other children and youths, including a public pre-school education. A *homeless child* is defined as provided in the McKinney-Vento Homeless Assistance Act and the Ill. Education for Homeless Children Act. The Superintendent or designee shall act as or appoint a Liaison for Homeless Children to coordinate this policy's implementation.

A homeless child may attend the District school that the child attended when permanently housed or in which the child was last enrolled. A homeless child living in any District school's attendance area may attend that school.

The Superintendent or designee shall review and revise rules or procedures that may act as barriers to the enrollment of homeless children and youths. Transportation shall be provided in accordance with the McKinney-Vento Homeless Assistance Act and State law. The Superintendent or designee shall give special attention to ensuring the enrollment and attendance of homeless children and youths who are not currently attending school. If a child is denied enrollment or transportation under this policy, the Liaison for Homeless Children shall immediately refer the child or his or her parent/guardian to the ombudsperson appointed by the Regional Superintendent and provide the child or his or her parent/guardian with a written explanation for the denial. Whenever a child and his or her parent/guardian who initially share the housing of another person due to loss of housing, economic hardship, or a similar hardship continue to share the housing, the Liaison for Homeless Children shall, after the passage of 18 months and annually thereafter, conduct a review as to whether such hardship continues to exist in accordance with State law.

Administrative Procedure - Checklist for Development, Implementation, and Maintenance of Parent Involvement Compacts for Title I Programs

The development, implementation, and maintenance of parent/guardian involvement compacts must be accomplished with meaningful consultation with parents/guardians of children participating in Title I programs. The Superintendent designates a person to be responsible for the process of obtaining meaningful consultation. This checklist includes some measures designed to encourage meaningful consultation.

This is an annual checklist. *Check steps as completed.*

- Plan regular meetings throughout the school year with parents/guardians to discuss the District and/or school compacts; identify dates and convenient times, places, and persons whose attendance is desired. Offer meetings in the morning or evening, and, if funds are available under Title I for this purpose, provide transportation, childcare, or home visits, as such services relate to parent/guardian involvement.
- Plan an agenda for meetings to be held to discuss District and/or school compacts.
 - Always begin with “introducing where we are now” and end with “next steps.”
 - Agendas should provide for 2-way communication between District and parents/guardians of children participating in Title I programs.
 - Agendas can be built around the federal compliance requirements as stated in the IASB sample district- and school-level compacts.
 - Agendas should also include a section to inform parents/guardians of their school’s participation under Title I and to explain Title I’s requirements regarding parent/guardian involvement, including the right of the parents/guardians to be involved.
 - Agendas should also include a section to describe and explain the curriculum in use at the school, the forms of academic assessment used to measure student progress, and the proficiency levels students are expected to meet.
 - If requested by a parent/guardian, agendas should also include a section for parents/guardians to formulate suggestions and to participate, as appropriate, in decisions relating to their children’s education.
 - Agendas should also include a section to involve parents/guardians in the planning, review, and improvement of Title I programs, including the joint development of the schoolwide program plan under 20 U.S.C. §6314(b)(2).
 - Another agenda topic is how funds are allotted for parent/guardian involvement in activities; parents/guardians of children receiving services must be involved in these decisions.
- Notify interested persons of meeting dates to discuss the District and/or school compacts, including:
 - Parents/guardians of students’ participating in Title I programs
 - Staff members
 - Students participating in Title I programs
 - School Board members
 - Media
 - Coordinators for other school programs, e.g., Head Start and preschool programs
 - Other _____
- Publicize the meeting dates, times, and locations to discuss District and/or school compacts.

-
- Make all Open Meetings Act notifications and postings for meetings to be held to discuss District and/or school compacts. Note: it is wise to assume these meetings will be in open session if Board members are expected to attend.
 - Appoint a recording secretary to keep meeting minutes.
 - Provide copies of working drafts to parents/guardians in an understandable and uniform format and, to the extent practicable, in a language the parents/guardians can understand.
 - Determine “success” indicators to measure the effectiveness of the parental involvement compacts in improving the academic achievement.
 - Review the “success” indicators in order to evaluate the effectiveness of the parental involvement compacts in improving the academic achievement.
 - Identify barriers to greater participation by parents/guardians, with particular attention to parents/guardians who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background. Use the findings of such evaluation to design strategies for more effective parent/guardian involvement.
 - If the schoolwide program plan under 20 U.S.C. §6314(b)(2) is not satisfactory to the parents/guardians of participating children, submit any parents/guardians comments on the plan when the school makes the plan available to the School Board.
 - Provide status reports to the Board and, periodically, submit updated parental involvement compacts to the Board.
 - Revise the applicable parental involvement compacts as necessary.

- ◆ support the educational goals of the district and the objectives of specific courses
- ◆ be appropriate for the subject area, age and ability level of the students
- ◆ have aesthetic, literary, or educational value
- ◆ be created by competent and qualified authors and producers
- ◆ help foster respect for all members of society
- ◆ have a physical format and appearance suitable for the intended use

Each book donated will have a bookplate affixed in the book designating the donor's name and other information if appropriate, such as "in memory of..." or "in honor of..." statements.

Audiovisual equipment will be accepted if it is in good working order and useful to the district. We will also accept cash donations to purchase additional materials or equipment. The media center staff will work with donors if they have specific suggestions for purchase and will follow the criteria listed above.

Materials and equipment not added to our collections may be offered to the staff, students, or the public library. Anything not used will be discarded.

Access to Electronic Networks

Electronic networks, including the Internet, are a part of the District's instructional program and serve to promote educational excellence by facilitating resource sharing, innovation, and communication. The Superintendent shall develop an implementation plan for this policy and appoint system administrator(s). The School District is not responsible for any information that may be lost or damaged, or become unavailable when using the network, or for any information that is retrieved or transmitted via the Internet. Furthermore, the District will not be responsible for any unauthorized charges or fees resulting from access to the Internet.

Curriculum

The use of the District's electronic networks shall: (1) be consistent with the curriculum adopted by the District as well as the varied instructional needs, learning styles, abilities, and developmental levels of the students, and (2) comply with the selection criteria for instructional materials and library resource center materials. Staff members may, consistent with the Superintendent's implementation plan, use the Internet throughout the curriculum.

The District's electronic network is part of the curriculum and is not a public forum for general use.

Acceptable Use

All use of the District's electronic networks must be: (1) in support of education and/or research, and be in furtherance of the goals stated herein, or (2) for a legitimate school business purpose. Use is a privilege, not a right. Students and staff members have no expectation of privacy in any material that is stored, transmitted, or received via the District's electronic networks or District computers. General rules for behavior and communications apply when using electronic networks. The District's *Authorization for Electronic Network Access* contains the appropriate uses, ethics, and protocol. Electronic communications and downloaded material, including files deleted from a user's account but not erased, may be monitored or read by school officials.

Internet Safety

Each District computer with Internet access shall have a filtering device that blocks entry to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by federal law and as determined by the Superintendent or designee. The Superintendent or designee shall enforce the use of such filtering devices. An administrator, supervisor, or other authorized person may disable the filtering device for bona fide research or other lawful purpose, provided the person receives prior permission from the Superintendent or system administrator. The Superintendent or designee shall include measures in this policy's implementation plan to address the following:

1. Ensure staff supervision of student access to online electronic networks,
2. Restrict student access to inappropriate matter as well as restricting access to harmful materials,
3. Ensure student and staff privacy, safety, and security when using electronic communications,
4. Restrict unauthorized access, including "hacking" and other unlawful activities, and
5. Restrict unauthorized disclosure, use, and dissemination of personal identification information, such as, names and addresses.

Authorization for Electronic Network Access

Each staff member must sign the District's *Authorization for Electronic Network Access* as a condition for using the District's electronic network. Each student and his or her parent(s)/guardian(s) must sign the *Authorization* before being granted unsupervised use.

All users of the District's computers to access the Internet shall maintain the confidentiality of student records. Reasonable measures to protect against unreasonable access shall be taken before confidential student information is loaded onto the network.

The failure of any student or staff member to follow the terms of the *Authorization for Electronic Network Access*, or this policy, will result in the loss of privileges, disciplinary action, and/or appropriate legal action.

Instruction

Administrative Procedure - Acceptable Use of Electronic Networks

All use of electronic networks shall be consistent with the District's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. These procedures do not attempt to state all required or proscribed behavior by users. However, some specific examples are provided. **The failure of any user to follow these procedures will result in the loss of privileges, disciplinary action, and/or appropriate legal action.**

Terms and Conditions

Acceptable Use - Access to the District's electronic network must be: (a) for the purpose of education or research, and be consistent with the District's educational objectives, or (b) for legitimate business use.

Privileges - The use of the District's electronic network is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. The system administrator will make all decisions regarding whether or not a user has violated these procedures and may deny, revoke, or suspend access at any time. His or her decision is final.

Unacceptable Use - The user is responsible for his or her actions and activities involving the network. Some examples of unacceptable uses are:

- a. Using the network for any illegal activity, including violation of copyright or other contracts, or transmitting any material in violation of any State or federal law;
- b. Unauthorized downloading of software, regardless of whether it is copyrighted or de-virused;
- c. Downloading copyrighted material for other than personal use;
- d. Using the network for private financial or commercial gain;
- e. Wastefully using resources, such as file space;
- f. Hacking or gaining unauthorized access to files, resources, or entities;
- g. Invading the privacy of individuals, that includes the unauthorized disclosure, dissemination, and use of information about anyone that is of a personal nature including a photograph;
- h. Using another user's account or password;
- i. Posting material authored or created by another without his/her consent;
- j. Posting anonymous messages;
- k. Using the network for commercial or private advertising;
- l. Accessing, submitting, posting, publishing, or displaying any defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, harassing, or illegal material.
- m. Using the network while access privileges are suspended or revoked.

Network Etiquette - The user is expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

- a. Be polite. Do not become abusive in messages to others.
- b. Use appropriate language. Do not swear, or use vulgarities or any other inappropriate language.

- c. Do not reveal personal information, including the addresses or telephone numbers, of students or colleagues.
- d. Recognize that electronic mail (e-mail) is not private. People who operate the system have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities.
- e. Do not use the network in any way that would disrupt its use by other users.
- f. Consider all communications and information accessible via the network to be private property.

No Warranties - The District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The District will not be responsible for any damages the user suffers. This includes loss of data resulting from delays, non-deliveries, missed-deliveries, or service interruptions caused by its negligence or the user's errors or omissions. Use of any information obtained via the Internet is at the user's own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

Indemnification - The user agrees to indemnify the School District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District relating to, or arising out of, any violation of these procedures.

Security - Network security is a high priority. If the user can identify a security problem on the Internet, the user must notify the system administrator or Building Principal. Do not demonstrate the problem to other users. Keep your account and password confidential. Do not use another individual's account without written permission from that individual. Attempts to log-on to the Internet as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to the network.

Vandalism - Vandalism will result in cancellation of privileges and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or any other network. This includes, but is not limited to, the uploading or creation of computer viruses.

Telephone Charges - The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, long-distance charges, per-minute surcharges, and/or equipment or line costs.

Copyright Web Publishing Rules - Copyright law and District policy prohibit the re-publishing of text or graphics found on the Web or on District Web sites or file servers without explicit written permission.

- a. For each re-publication (on a Web site or file server) of a graphic or a text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the Web address of the original source.
- b. Students and staff engaged in producing Web pages must provide library media specialists with e-mail or hard copy permissions before the Web pages are published. Printed evidence of the status of "public domain" documents must be provided.
- c. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the Web site displaying the material may not be considered a source of permission.
- d. The "fair use" rules governing student reports in classrooms are less stringent and permit limited use of graphics and text.
- e. Student work may only be published if there is written permission from both the parent/guardian and student.

Use of Electronic Mail - The District's electronic mail system, and its constituent software, hardware, and data files, are owned and controlled by the School District. The School District provides e-mail to aid students and staff members in fulfilling their duties and responsibilities, and as an education tool.

- a. The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account's user. Unauthorized access by any student or staff member to an electronic mail account is strictly prohibited.
- b. Each person should use the same degree of care in drafting an electronic mail message as would be put into a written memorandum or document. Nothing should be transmitted in an e-mail message that would be inappropriate in a letter or memorandum.
- c. Electronic messages transmitted via the School District's Internet gateway carry with them an identification of the user's Internet "domain." This domain name is a registered domain name and identifies the author as being with the School District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the School District. Users will be held personally responsible for the content of any and all electronic mail messages transmitted to external recipients.
- d. Any message received from an unknown sender via the Internet should either be immediately deleted or forwarded to the system administrator. Downloading any file attached to any Internet-based message is prohibited unless the user is certain of that message's authenticity and the nature of the file so transmitted.
- e. Use of the School District's electronic mail system constitutes consent to these regulations.

Internet Safety

Internet access is limited to only those "acceptable uses" as detailed in these procedures. Internet safety is almost assured if users will not engage in "unacceptable uses," as detailed in these procedures, and otherwise follow these procedures.

Staff members shall supervise students while students are using District Internet access to ensure that the students abide by the Terms and Conditions for Internet access contained in these procedures.

Each District computer with Internet access has a filtering device that blocks entry to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by the Children's Internet Protection Act and as determined by the Superintendent or designee.

The system administrator and Building Principals shall monitor student Internet access.

Instruction

Administrative Procedure - Web Publishing Guidelines

General Requirements

All material published on the District Web site must have educational value and/or support the District guidelines, goals, and policies. Material appropriate for Web publishing includes information about the District and its School Board members, agendas, policies, appropriate administrative procedures, Department activities or services, schools, teachers or classes, student projects, and student extracurricular organizations. Personal information, not related to education, will not be allowed on the District Web site.

The District Webmaster shall implement a centralized process for review and uploading of material onto the District's Web site to ensure that, before material is published, it complies with District policy and procedures. The District Webmaster shall supervise the efforts of all staff members responsible for Web publishing at each level of District Web publishing and, when appropriate, hold in-serve opportunities for those staff members. The staff members responsible for Web publishing are identified in these procedures in the section "Different Levels of Web Publication." The District Webmaster shall provide regular feedback and suggestions to the Superintendent regarding these Guidelines.

All content published on the District Web site must:

1. Comply with all State and federal law concerning copyright, intellectual property rights, and legal uses of network computers.
2. Comply with Board policies, administrative procedures, these Guidelines, and other District guidelines provided for specific levels of publishing. This specifically includes the Board's *Access to Electronic Networks* policy and the District's procedures on *Acceptable Use of Electronic Networks*.
3. Due to limited storage space and varying network speeds, file sizes must be kept under 50 kilobytes unless the District Webmaster approves otherwise.
4. Comply with the publishing expectations listed below.

Material that fails to meet these Guidelines or is in violation of Board policy and/or procedures shall not be published on the District Web site. The District reserves the right to remove any material in violation of its policy or procedures. Failure to follow these Guidelines or Board policy and/or procedures may result in loss of privileges, disciplinary action, and/or appropriate legal action.

Publishing Expectations

The following are minimum expectations for all District Web pages:

1. The style and presentation of Web published material should be of high quality and designed for clarity and readability. Material shall not be published in violation of the District's procedures on *Acceptable Use of Electronic Networks*, including material that is defamatory, abusive, obscene, profane, sexually oriented, threatening, racially offensive, or harassing or material that invades the privacy of any individual. Anonymous messages are prohibited.
2. Correct grammar and spelling are expected.
3. All information must be verifiable.
4. Publications must include a statement of copyright when appropriate and indicate that permission has been secured when including copyrighted materials.
5. Publications must identify affiliation with the District, school, and/or department.
6. Widespread use of external links to non-District Web sites is discouraged, but if used, the external sites must contain appropriate educational materials and information as exclusively determined by the

District. Every effort should be made to insure that all links are operational. Every link to an external Web site must open a new browser window.

7. Relevant dates are required on all publications, including the date on which the publication was placed on the District Web site. Each site should contain the date the page was last updated.
8. All publications must include the District email address of the staff member responsible for the page. This provides a contact person for questions or comments. If a student is the publisher, the sponsoring staff member's email must be included as the responsible person. Only District staff members may act as student sponsors.
9. Use of the District's Web site for personal or financial gain is prohibited. No commercial or private accounts should be listed on any District Web pages.
10. All documents should be previewed on different Web browsers, especially Netscape Navigator and Internet Explorer, before being posted on the District Web site.

For more information about these expectations or other issues related to Web publishing, please contact the System Administrator.

Protecting Student and Staff Privacy

Personal information concerning students or staff members, including home addresses and telephone numbers, shall not be published on District Web pages.

A student's last name, last name initial, and grade-level shall not be published on District Web pages. In addition, student records shall not be disclosed. In special circumstances (e.g., where accolades are warranted), the sponsoring staff member should contact the Building Principal who may seek permission from the student's parents/guardians. Web pages shall not display student pictures with a student identified by his or her name unless written parental permission was first granted (e.g., by executing the form *Using a Photograph or Videotape of a Student*). Student email addresses, whether a personal or District account, shall not be listed on any District Web page.

Submitting Material to Be Published

Everyone submitting material for publication on the District's Web site shall have signed an *Authorization for Electronic Network Access*. Before material is published on the District Web site, the author must authorize the District in writing to publish the material, unless the District owns the copyright. All material submitted by a teacher or other staff member for publication on the District's Web site is deemed "work for hire," and the copyright in those works vests in the District. All material submitted for the District Web site is subject to treatment as a District-sponsored publication.

Different Levels of Web Publication

The following guidelines provide specific information regarding Web publishing at different levels within the District. At each level, a staff member is identified as being responsible for Web publishing at that level. This individual's Web publishing efforts are supervised by the District Webmaster.

District-Level

The District Webmaster conducts the District-level Web publishing efforts and supervises other levels of Web publishing. District-level publishing includes the District's homepage as well as any publishing activities representing the District as a whole, e.g., information about Board meetings, Board policy, and schedules. The District homepage shall have a link to an Online Privacy Statement.

Department-Level

District departments (e.g., Transportation, Personnel, or Curriculum) may publish their own Web pages as part of the District's Web site. The department supervisor or director is ultimately responsible for his or

her respective department's Web pages, but may appoint a staff member as the department's Webmaster to fulfill the maintenance, reviewing, and uploading tasks. The department supervisor or director shall keep the District Webmaster informed of who is the department Webmaster.

The Web-published material should coincide with that department's printed material. The District Webmaster should be consulted before publishing potentially sensitive material, e.g., school comparisons or student data.

The department front pages should maintain the look and feel of the District homepage – the connection to the District should be obvious. Links to the main Web site's "home" must be included at the bottom of main pages, and the District's logo must be included at the top of main front pages of each department.

School-Level

The Building Principal is ultimately responsible for his or her respective school's Web pages, but may appoint a staff member as the School Webmaster to fulfill the maintenance, reviewing, and uploading tasks. The Building Principal shall keep the District Webmaster informed of who is the School Webmaster. All official material originating from the school will be consistent with the District style and content guidelines. The Building Principal or School Webmaster may develop guidelines for the various sections of and contributors to the school's Web pages.

Staff-Level

Any teacher or other staff member wanting to create Web pages for use in class activities or to provide a resource for other teachers or staff members shall notify the School Webmaster of his or her desired publishing activities.

Student-Level

A student wanting to create Web pages on the District Web site as part of a class or school-sponsored activity should request a teacher or staff member to sponsor the student's publishing efforts. The sponsoring teacher or staff member shall notify the School Webmaster of the desired publishing activities. The student's Web page must include an introduction written by the sponsor that describes the intent of the student's Web page and contains the sponsor's District email address. Student Web pages will be removed at the end of the school year unless special arrangements are made.

Personal Web pages are not allowed on the School District's Web server. Likewise, student Web pages may not contain commercial or advertising links, including links to games and advertisements for games.

Exhibit - Letter to Parent(s)/Guardian(s) Regarding Student Use of the Internet

Dear Parent(s)/Guardian(s),

We now have the ability to enhance your child's education through the use of the Internet. The Internet offers vast, diverse, and unique resources. The District's goal in providing this service is to promote educational excellence by facilitating resource sharing, innovation, and communication. Your authorization is needed before your child may use this resource.

The Internet electronically connects thousands of computers throughout the world and millions of individual subscribers. Students and teachers may have access to:

- Limited electronic mail communications with people all over the world
- Information from government sources, research institutions, and other sources
- Discussion groups
- Many libraries, including the catalog to the Library of Congress, and the Educational Resources Information Clearinghouses (ERIC).

With this educational opportunity also comes responsibility. You and your child should read the enclosed *Authorization for Internet Access* and discuss it together. The use of inappropriate material or language, or violation of copyright laws, may result in the loss of the privilege to use this resource. Remember that you are legally responsible for your child's actions.

The District takes precautions to prevent access to materials that may be defamatory, inaccurate, offensive, or otherwise inappropriate in the school setting. On an unregulated network, however, it is impossible to control all material and a user may discover inappropriate material. Ultimately, parent(s)/guardian(s) are responsible for setting and conveying the standards that their child or ward should follow. To that end, the School District supports and respects each family's right to decide whether or not to authorize Internet access.

Please read and discuss the *Authorization for Internet Access* with your child. If you agree to allow your child to have an Internet account, sign the *Authorization* form and return it to your school.

Field Trips

The School Board encourages field trips when the experiences are an integral part of the school curriculum and contribute to the District's desired educational goals.

Student activities involving travel shall be authorized by the Superintendent or a designee. Each trip authorization shall be based on the written rationale of the travel's educational value as well as the safety and welfare of the students involved.

Guidelines for field trips are:

1. All field trips shall be adequately supervised by staff members and other adults.
2. Whenever entrance fees, food, lodging or other costs are involved, these costs shall be assumed by the student unless otherwise stipulated by the School Board, provided that no student shall be excluded from any field trip because of a lack of funds. On all field trips, a bus fee to be set by the Superintendent may be charged to help defray the cost of transportation.
3. Parental permission must be obtained in writing when a field trip is planned.

The teacher shall arrange for the supervision and appropriate alternative learning experiences for non-participating students.

The School Board encourages the use of resource persons and volunteers to: (1) increase students' educational attainment, (2) provide enrichment experiences for students, (3) increase the effective utilization of staff time and skills, (4) give more individual attention to students, and (5) promote greater community involvement.

Resource persons and volunteers may be used:

1. For non-teaching duties not requiring instructional judgment or evaluation of students;
2. For supervising study halls, long distance teaching reception areas used incident to instructional programs transmitted by electronic media (such as computers, video, and audio), detention and discipline areas, and school-sponsored extracurricular activities;

Administrative Procedure - Securing and Screening Resource Persons and Volunteers

The Building Principal or designee directs the use of resource persons and volunteers within his or her building. The use of any individual as a resource person or volunteer is subject to Board policy 4:170, *Safety*; administrative procedure 4:170-AP2, *Criminal Offender Notification Laws*; and Board policy 8:30, *Visitors to and Conduct on School Property*. Specifically, the Principal or designee directs recruitment, screening, placement, and training within the following parameters:

Qualifications - Resource persons and volunteers may come from all backgrounds and all age groups. The main qualification is for the individual to have a desire to give his or her time and talent to enrich student learning opportunities and the school community generally.

Individuals Not Allowed to Serve as a School Volunteer or Resource Person - No individual who is a “sex offender,” as defined by the Sex Offender Registration Act, or a “violent offender against youth,” as defined in the Child Murderer and Violent Offender Against Youth Registration Act, may serve as a resource person or volunteer. Whenever an individual submits a new volunteer information form, the Building Principal or designee shall review the Illinois Sex Offender Registry, www.isp.state.il.us/sor, and the violent offenders against youth database maintained by the State Police (when available). The Building Principal may request an individual to submit to a criminal history records check if the individual will be working over a long period of time in direct contact with students where no staff member is continuously present or in other situations where a check would be prudent. In addition, the Building Principal or designee shall review each new list received from law enforcement containing the names of sex offenders (authorized by the Sex Offender Community Notification Law) and violent offenders against youth (authorized by the Child Murderer and Violent Offender Against Youth Community Notification Law) to determine if any resource person or volunteer appears on it.

Recruitment - School personnel may recruit resource persons and volunteers through the following resources: parents/guardians, parent organizations, retired teachers and other senior citizen groups, community businesses, local volunteer centers, and universities. If a staff member, other than the Building Principal, recruits someone, the staff member must provide the individual’s name and address to the Building Principal.

Role - Resource persons and volunteers serve only in an auxiliary capacity under the direction and supervision of a staff member; they are not a substitute for a member of the school staff. Resource persons and volunteers do not have access to confidential student school records.

Selection, Placement, and Supervision - Selection and placement shall be on the basis of an individual’s qualifications and availability and the school’s needs. The individual will be assigned to a staff member only with the staff member’s consent. The relationship between the individual and staff member should be one of mutual respect and confidence.

Requirements - Each resource person and volunteer must register in the school’s main office at the beginning of each visit and wear a name tag while in the building or serving. Unless he or she has already done so during the current academic year, the individual must complete an information form and waiver. Absent an indication on the form that the individual may not qualify, the individual may proceed to the assigned activity.

An individual is prohibited from being a resource person or volunteer if he or she behaves in any manner that demonstrates he or she is not a good role model or is otherwise detrimental to the school environment. Examples of such behavior include: swearing, failing to be dependable, failing to follow the supervisor's instructions, committing any criminal act on school grounds or at a school activity, touching a student in a rude or overly forceful manner, failing to dress in an appropriate manner, or violating any school rule.

Training - Each academic year, when an individual first completes the registration form, the Principal or designee should give the individual a copy of this administrative procedure along with other pertinent information. The staff member to whom the individual is assigned is responsible for explaining what is expected of the individual. The Principal or designee should arrange appropriate training opportunities for those volunteer activities requiring a skill or knowledge base, e.g., working in the computer lab.

Guidance and Counseling Program

The School District provides a guidance and counseling program for students. The Superintendent or designee shall direct the District's guidance and counseling program. School counseling services, as described by State law, may be performed by a qualified guidance specialist or any certificated staff member.

[For Elementary and Unit Districts]

Each staff member is responsible for effectively guiding students under his/her supervision in order to provide early identification of intellectual, emotional, social, or physical needs, diagnosis of any learning disabilities, and development of educational potential. The District's counselors shall offer counseling to those students who require additional assistance.

[For High School and Unit Districts]

Students shall be encouraged to seek the help of counselors to develop specific curriculum goals that conform to the student's career objectives. High school juniors and seniors will have the opportunity to receive career-oriented information. Representatives from colleges and universities, occupational training institutions and career-oriented recruiters, including the military, may be given access to the school campus in order to provide students and parents/guardians with information.

Grading and Promotion

The Superintendent or designee shall establish a system of grading and reporting academic achievement to students and their parents/guardians. The system shall also determine when promotion and graduation requirements are met. The decision to promote a student to the next grade level shall be based on successful completion of the curriculum, attendance, and performance on the Illinois *Partnership for Assessment of Readiness for College and Careers* (PARCC) and/or other assessments. A student shall not be promoted based upon age or any other social reason not related to academic performance. The administration shall determine remedial assistance for a student who is not promoted.

Every teacher shall maintain an evaluation record for each student in the teacher's classroom. A District administrator cannot change the final grade assigned by the teacher without notifying the teacher. Reasons for changing a student's final grade include:

- A miscalculation of test scores,
- A technical error in assigning a particular grade or score,
- The teacher agrees to allow the student to do extra work that may impact the grade,
- An inappropriate grading system used to determine the grade, or
- An inappropriate grade based on an appropriate grading system.

Should a grade change be made, the administrator making the change must sign the changed record.

Promotion/Retention

It is recommended that most adjustments in pupil placement be accomplished in the kindergarten, first, second, or third grades; however, grade placement at all levels shall be flexible.

The decision as to pupil placement (retention or acceleration) shall be made by the school principal after careful consideration of the following:

Teacher Recommendation

Attendance

Grades

Primary Level: Grades K-5

---A student with low achievement levels in either mathematics or reading will be recommended for summer school.

---A student who fails mathematics or reading for the year will be required to attend summer school or will be retained at current grade level.

---A student who fails both mathematics and reading will be retained at current grade level.

Middle School Level: Grades 6-8

---A student must pass 4 of 5 academic subjects to be promoted to the next grade.

---A student who fails either mathematics or reading will be required to attend summer school or will be retained at current grade level.

Achievement Scores/Testing Program

Grades K-8

---A student who falls below the 25% level on the total battery reading or total battery mathematics subtests of the district administered standardized test must attend summer school or will be retained at current grade level.

---A student in second or fifth grade who falls below the 15% level on the total battery reading or total battery mathematics subtests of the district administered standardized test will be retained at current grade level.

Procedures to be followed in promotion or retention shall be as follows:

1. A teacher feeling that a child's problems can be improved by special grade placement or academic assistance should immediately inform the principal.
2. The principal, in conjunction with parents and teacher, may develop an academic assistance program for the student.
3. A teacher feeling that a child should be considered for summer school or retention should confer with the parent between December and March to gain their help and to prepare them for special promotion or retention.
4. In April, a teacher-principal conference will be held to review the student's grades and achievement test scores.
5. Following this review, the principal will make the final decision regarding placement and notify the parents regarding their child's status relative to summer school and/or retention.
6. The placement of a student who has actively participated in the remediation strategies suggested and offered by the school system, including retention, and who is still unable to meet grade and

achievement standards will be determined at a conference held with district staff and parents. The placement decision will be made by the principal based upon how best the student can meet academic goals.

A student whose standardized test scores fall below the 25% threshold, but who maintains a grade of C or higher in all subjects will be eligible for and encouraged to participate in remediation activities up to and including summer school. The student will not be required to attend summer school nor be subject to the retention provisions of this policy.

This policy does not apply to children with Individualized Education Plans.

This policy will be distributed during the first two weeks of school to all parents who have children in grades K-8. Parents enrolling students after the first two weeks of school will receive a copy of this policy within two weeks of their child's enrollment.

High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students

Credit for Non-District Experiences

A student may receive high school credit for successfully completing any of the listed courses or experiences even when it is not offered in or sponsored by the District:

1. Distance learning course, including a correspondence, virtual, or online course
2. Courses in an accredited foreign exchange program
3. Summer school or community college courses
4. College courses offering dual credit courses at both the college and high school level
5. Foreign language courses taken in an ethnic school program approved by the Illinois State Board of Education
6. Work-related training at manufacturing facilities or agencies in a Youth Apprenticeship Vocational Education Program (Tech Prep)
7. Credit earned in a Vocational Academy

The student must seek approval from the Superintendent or designee to receive graduation credit for any non-District course or experience. The Superintendent or designee shall determine the amount of credit and whether a proficiency examination is required before the credit is awarded. As approval is not guaranteed, students should seek conditional approval of the experience before participating in a non-District course or experience. The student assumes responsibility for any fee, tuition, supply, or other expense. The student seeking credit is responsible for (1) providing documents or transcripts that demonstrate successful completion of the experience, and (2) taking a proficiency examination, if requested. The Superintendent or designee shall determine which, if any, non-District courses or experiences, will count toward a student's grade point average, class rank, and eligibility for athletic and extracurricular activities. This section does not govern the transfer of credits for students transferring into the District.

Substitutions for Required Courses

Vocational or technical education. A student in grades 9-12 may satisfy one or more high school courses (including physical education) or graduation requirements by successfully completing related vocational or technical education courses if:

1. The Building Principal approves the substitution and the vocational or technical education course is completely described in curriculum material along with its relationship to the required course; and
2. The student's parent/guardian requests and approves the substitution in writing on forms provided by the District.

Advanced placement computer science. The advanced placement computer science course is equivalent to a high school mathematics course. A student in grades 9-12 may substitute the advanced placement computer science course for one year of mathematics, in accordance with Section 27-22 of the School Code. The transcript of a student who completes the advanced placement computer science course will state that it qualifies as a mathematics-based, quantitative course.

Substitutions for physical education. A student in grades 9-12, unless otherwise stated, may submit a written request to the Building Principal to be excused from physical education courses for the reasons stated below.

The Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student's individual circumstances, as appropriate.

1. Enrollment in a marching band program for credit;
2. Enrollment in Reserve Officer's Training Corps (ROTC) program sponsored by the District;
3. Ongoing participation in an interscholastic athletic program (student must be in the 11th or 12th grade);
4. Enrollment in academic classes that are required for admission to an institution of higher learning (student must be in the 11th or 12th grade); or
5. Enrollment in academic classes that are required for graduation from high school, provided that failure to take such classes will result in the student being unable to graduate (student must be in the 11th or 12th grade).

A student requiring adapted physical education must receive that service in accordance with his or her Individualized Educational Program/Plan (IEP).

A student who is eligible for special education may be excused from physical education courses in either of the following situations:

1. He or she (a) is in grades 3-12, (b) his or her IEP requires that special education support and services be provided during physical education time, and (c) the parent/guardian agrees or the IEP team makes the determination; or
2. He or she (a) has an IEP, (b) is participating in an adaptive athletic program outside of the school setting, and (c) the parent/guardian documents the student's participation as required by the Superintendent or designee.

Volunteer service credit. A student participating in the District's Volunteer Service Credit Program, if any, may earn credit toward graduation for the performance of community service. The amount of credit given for program participation shall not exceed that given for completion of one semester of language arts, math, science, or social studies.

Re-Entering Students

Individuals younger than 21 years of age may re-enter high school to acquire a high school diploma or an equivalency certificate, subject to the limitations in Board policy 7:50, *School Admissions and Student Transfers To and From Non-District Schools*. Re-entering students may obtain credit through the successful completion of the following (not all of these may be available at any one time):

1. District courses
2. Non-District experiences described in this policy
3. Classes in a program established under Section 10-22.20 of the School Code, in accordance with the standards established by the Illinois Community College Board
4. Proficiency testing, correspondence courses, life experiences, and other nonformal educational endeavors
5. Military service, provided the individual making the request has a recommendation from the U.S. Commission of Accreditation of Service Experiences

The provisions in the section **Credit for Non-District Experiences**, above, apply to the receipt of credit for any non-District course.

High School Credit for Students in Grade 7 or 8

The Superintendent or designee may investigate, coordinate, and implement a program for students in grades 7 and 8 to enroll in a course required for a high school diploma.

[The next two paragraphs are only for unit and high school districts; the final paragraph is only for elementary districts.]

If a program is available, students in grades 7 and 8 may enroll in a course required for a high school diploma when the course is offered by the high school that the elementary student would attend and either of the following is satisfied: (1) the student participates in the course at the high school and the elementary student's enrollment in the course would not prevent a high school student from being able to enroll, or (2) the student participates in the course where the student attends school as long as the course is taught by a teacher who holds a professional educator license with an endorsement for the grade level and content area of the course.

A student who successfully completes a course required for a high school diploma while in grades 7 and 8 shall receive academic credit for the course. That academic credit shall satisfy the requirements of Section 27-22 of the School Code for purposes of receiving a high school diploma, unless evidence about the course's rigor and content show that the course did not address the relevant Illinois learning standard at the level appropriate for the high school grade during which the course is usually taken. The student's grade in the course shall also be included in the student's grade point average.

[Elementary school districts only]

If a program is available, students in grades 7 and 8 may enroll in a course required for a high school diploma. Students in grades 7 and 8 who successfully complete a course required for a high school diploma will receive academic credit if permitted by, and in accordance with, the policy of the district where the elementary student will attend high school.

High School Credit for Proficiency

Proficiency Credits

Subject to the limitations in this policy and State law, the Superintendent or designee is authorized to establish and approve a program for granting credit for proficiency with the goal of allowing a student who would not benefit from a course because the student is proficient in the subject area to receive credit without having to take the course. A student who demonstrates competency under this program will receive course credit for the applicable course and be excused from any requirement to take the course as a graduation prerequisite. No letter grade will be given for purposes of the student's cumulative grade point average. The Superintendent or designee shall notify students of the availability of and requirements for receiving proficiency credit.

Proficiency credit will be offered in the following subject areas:

Foreign language - A student is eligible to receive one year of foreign language credit if the student has graduated from an accredited elementary school and can demonstrate proficiency, according to this District's academic criteria, in a language other than English. A student who demonstrates proficiency in American Sign Language is deemed proficient in a foreign language and will receive one year of foreign language credit. A student who studied a foreign language in an approved ethnic school program is eligible to receive appropriate credit according to the level of proficiency reached; the student may be required to take a proficiency examination.

Other proficiency testing - The program for granting credit for proficiency may allow, as the Superintendent deems appropriate, course credit to be awarded on the basis of a local examination to a student who has achieved the necessary proficiency through independent study or work taken in or through another institution. Proficiency testing may also be used to determine eligible credit for other subjects whenever students enter from non-graded schools, non-recognized or non-accredited schools, or were in a home-schooling program.

Student Testing and Assessment Program

The District student assessment program provides information for determining individual student achievement and instructional needs; curriculum and instruction effectiveness; and school performance measured against District student learning objectives and statewide norms.

The Superintendent or designee shall manage the student assessment program that, at a minimum:

1. Administers the State assessment system, known as the *Partnership for Assessment of Readiness for College and Careers* (PARCC), to all students and/or any other appropriate assessment methods and instruments, including norm and criterion-referenced achievement tests, aptitude tests, proficiency tests, and teacher-developed tests.
2. Informs students of the timelines and procedures applicable to their participation in every State assessment.
3. Provides each student's parents/guardians with the results or scores of each State assessment and an evaluation of the student's progress. See policy 6:280, *Grading and Promotion*.
4. Utilizes professional testing practices.

Overall student assessment data on tests required by State law will be aggregated by the District and reported, along with other information, on the District's annual report card. All reliable assessments administered by the District and scored by entities outside of the District must be (1) reported to ISBE on its form by the 30th day of each school year, and (2) made publicly available to parents and guardians of students. Board policy 7:340, *Student Records*, and its implementing procedures govern recordkeeping and access issues.
